

*I would like you to know that since you gave me the deep massages, once in September 2008 and twice in October 2008, the recurring discomfort in my right wrist and right shoulder from work-related injuries since 2006, has not returned . I believe this is because of the caring and thorough treatments you gave me. I also appreciate your follow-up telephone calls, kind offers and advices to help me get better. It is your sincerity, loving kindness and compassion for others that make your practice and whatever you do so healing.*

*I thank Vitality Oriental Therapy for being who you are. I wish you all the best in the pursuit of your career.*
